

ePledge

go paperless:
it's quick & easy for you and your employees!

Why Use ePledge?

ePledge is a highly secure and proven online campaign management system that provides you with the capabilities to run a successful campaign. This campaign management tool allows you to view your company's campaign from a dedicated, secure website, providing one central point for all campaign information. This maximizes efficiency of campaign administration.

It's Easy!

Ready to make the switch to an ePledge Campaign? We are here to help.

- Automated gift confirmation emails.
- Ability to export records for payroll processing.
- Reduces or eliminates the need for paper pledge forms.

Testimonial

"The ePledge system is easy for our associates to make their annual contribution elections to United Way. As an administrator, you can pull reports to monitor participation levels and promote employee participation. Our organization has grown and expanded to over 24 states. Through ePledge we are able to capture their donations as well, benefitting United Way across the US. Any updates that may be needed during the campaign can be made in real time. Sometimes trying a new system can take more time, but utilizing ePledge is so easy that you will not regret making the change. I look forward to using the system again for our next campaign."

- Maria R. PESI, Inc.

"I highly recommend the ePledge system, especially if your organization has more than one location or employees who work remotely. It's easy to use, and the United Way staff members were always available to guide us through the transition and address any issues. We didn't need to worry about distributing and collecting forms. It was helpful to be able to pull daily reports to monitor participation, and it even sent out automated emails with reminders and helpful links to pledge. And at the end of the campaign, all the reporting was done for us. The entire process saved us a lot of time, and we will definitely use it again next year."

- Becky S. Security Financial Bank
